

ARGENCROPS S.A., Argentine legumes

Argencrops, located in the province of Jujuy, produces more than 9,000 tons of legumes per year, 95% of which are exported to more than 45 countries in America, Europe, Africa, the Middle East, Australia, and Southeast Asia.

Main products: all varieties of beans, such as common, black turtle, red, mung, cranberry, cinnamon, round, adzuki and also produces pisingallo corn, chickpea, and chia seeds.

It has obtained the Bureau Veritas HACCP certification and the “Gluten Free” certification issued by the National Food Institute (INAL) of Jujuy.

Currently, Argencrops is working in the development of ingredients with different formulations, such as flours to prepare just with water and in the microwave oven, also muffins, cupcakes, and several bakery products based on the vegetable protein. Thanks to a guaranteed traceability, Argencrops' products have a high-quality guarantee.
