## ABOUT US

---

We are a family business group from Mendoza, which started its activities in 1971.

We have been developing business entrepreneurships in the region of Cuyo, positioning ourselves as one of the main economic groups in Argentina. Thus, we have contributed to generate employment and to the economic growth of the country.

We started in the real estate business, setting significant landmarks in the region. Our fundamental pillars are Innovation, Quality and Leadership.

For more than 4 decades, our policy of expansion has allowed us to become leaders in different areas: Real Estate, Hotel Business, Shopping Centres and Agrobusiness.

**FICAMEN**

# Farming**Presidente**

## OUR INCEPTION

---

In 2004 we planted the first walnut trees. Since then, we have been reinvesting profits, allowing us to grow progressively. This makes us one of the main exporters of Chandler walnuts from Argentina. Our potential yield is 2.866.009 pounds, and our plot reserved for future walnut trees plantation 1.630 acres

# Farming**Presidente**

## **ADVANTAGES, MISSION**

---

Our comparative advantage is the production of Premium Walnuts as an off-season supplier to the Northern Hemisphere.

Our mission is to be leaders in the production and selling of Premium Walnuts from Argentina.

## Product Sheet

## Product: Inshell Walnut

### Product description

Dried fruit from varieties that belong to juglans regia free from outer hull, washed/dried (\*), brushed and sized(\*)  
(\*) Optional

### Physical Structure

According to Res. Senasa 453/13

### Chemical parameters

**Moisture content:** 8% max  
**Peroxide values:** <1.5% meq/Kg.

### Additional information

Containers 20" (10.000 kg.) and 40" (20.000 kg.)  
Harvest period: March-April  
Processing period: April-October

### Structure

**Variety:** Chandler  
**Appearance:** Typical of the product  
**Taste:** Typical of the fruit  
**Colour:** Light brown

### Sizes

Jumbo / Jumbo large / 36+ / 34+ / 36 / 32-34 / 30-32 / 28-30 / 28-

### Microbiological parameters

**Molds and yeast:** < 1000 UFC/g  
**E.coli:** <500 UFC/g  
**Salmonella:** negativo en 50g  
**Total aflatoxins:** max. 4 ppb  
**AflatoxinaB1:** max. 2 ppb

### Storage and Manipulation

This product should be stored in a clean, fresh and dry area, away from strong smells and contaminating products
